

## DANIELSON AND PUTNAM NEWS

## DANIELSON

Michael J. Sullivan died suddenly Sunday, just after the noon hour, at his home on High street. He had been in poor health for more than a year and in February his condition became so serious that he returned from Providence, where he had been a resident for about a year. For a time after his return here he showed some improvement, but for the past two weeks had not seemed so well. A few minutes before he died he was about the house and apparently as well as at any time for a fortnight.

Mr. Sullivan was born in Danielson, May 11, 1873, a son of Michael and Johanna Fogarty Sullivan. His education was obtained in Danielson's schools and the years of his early manhood were spent in Danielson. About twenty years ago he removed to Providence and he had since made his home in that city. Mr. Sullivan was a charter member of Putnam lodge of Elks.

Killingly High school's baseball schedule calls for opening the season on Wednesday of this week with Plainfield High to the visiting team. This year's games are to be played on Connecticut Mills field, at Connecticut Village. Manager Robert Morin of the K. H. S. team is pleased with the showing made in the practice games and has said that the team will try hard to win the championship of the high school league, duplicating, if possible, the feat of the basketball team of the school in the season just closed.

This is the last week of the present passenger train service on the New Haven road for some time to come. The new schedule becomes effective next Sunday, April 24. What it means in loss of transportation convenience on the steam road all who have studied the announcements relative to the new service understand. What it means in disrupted mail service for Danielson and the towns hereabouts that get their mail through is also understood. It seems that Danielson is not sufficiently important in any way to have its protests make effective, and the chances are that it will have to endure a train service arrangements that will be the most inconvenient in the memory of the oldest resident. Danielson will have the same number of passenger trains as at present—three each way, north and south, each week, but at times when they will be of far less value to the traveling public than the trains run as they are at present.

A unanimous call has been extended Rev. J. W. Houck to become pastor of the Baptist church at Danielson. Mr. Houck has been preaching at the Baptist

church here for several months and has created an exceedingly favorable impression. Sunday evening he was in conference with the deacons and trustees relative to the call, having thanked the congregation at the morning service for it, but not making any statement as to whether he had decided to accept.

At the Baptist church Saturday evening 140 sat down to a supper provided by the women of the church, who are on the losing side in the recently completed Sunday school attendance conference with the men of the church. At the exercises attendant upon the serving of the supper Frank T. Preston presided, he being the only man of the church who was affiliated with the women of the church in the attendance contest. Brief talks were made at the gathering by Rev. Mr. Houck and Horace P. Turner. At one table sat about a score of members of the Pastors' club, which includes a number of young men of the church and which was organized by Rev. Mr. Houck some time ago.

First Selectman John A. Gilbert said Sunday afternoon that the selectmen of Killingly are not prepared as yet to give out their decision relative to the matter of cutting down 14 maple trees on Reynolds street. Mr. Gilbert intimates, however, that the decision will be forthcoming in the very near future, probably this week.

At the masses at St. James' church Sunday morning the pastor, Rev. John Roux, M. S., requested members of the congregation who have an interest in any member of the large class to receive confirmation to furnish him with birth certificates of such children, none of whom may be under 10 years of age.

Children's week will begin next Sunday at the Congregational church and at the Sunday morning service there will be a special message for parents. The plans for the week contain a number of events that will be of special interest to the little people.

STREET FIGHTING REPORTED IN VARIOUS PARTS OF ITALY

Rome, April 17.—Street fighting, revolutionary and the shooting of buildings in various parts of Italy are continuing to enliven the electoral campaign.

In one of the suburbs of Bologna some 50 of the fascist attacked the socialist headquarters and occupied the rooms, the socialists fleeing to the roof. A squadron of carabinieri tried to persuade the fascist to desist. When one of the socialists, however, fired a revolver from the roof at the fascist and carabinieri gathered below, the two forces combined and opened fire on the socialists, mortally wounding Senor Veronesi, the secretary of the socialist organization. Order was ultimately restored, but feeling continued to run high.

The standpoint of those who believe Japan should stand upon the council's decision is voiced by Professor Usui of the Imperial University in an article in which he declares that should Japan be forced to comply with the American demand it would be the greatest national disgrace since the return of the Liao-Tung Peninsula to China under the pressure of the European powers after the Chinese-Japanese war.

Information from the official quarters on the subject is that Japan is still in consultation with the allies.

The Tokyo News agency quotes an unnamed cabinet minister as declaring Japan must follow the decision of the league of nations, that she has no right to act by herself against its rulings, and that therefore the questions involved should be settled between America and the league.

This news agency also quotes Professor Hayashi, councillor of the foreign office, as saying that America should approach the league of nations, as Japan has no right to interfere with its decisions. Nothing certain was known as to the views of Great Britain, France and Italy.

The council is quoted as adding, but he hoped that whatever their views were Japan would remain firm. Until the Yapan question was settled Japan, he declared, according to the agency, must maintain her present military administration of the Pacific islands.
